

ILLUSTRATION GROWTH RATES PENSION FUND RANGE

In our illustrations for a number of our products, we use growth rates which are based on the actual funds being invested in. These growth rates are reviewed on a regular basis. All asset classes have been updated to show a 3.0% spread between Low and Mid, and between Mid and High.

It's important to remember that the plan values we show in our illustrations are only a guide and are not guaranteed in any way, and you may get back less than the amount originally invested.

Current rates are shown below.

DEPOSIT

Fund Name	Assumed Low Growth Rate	Assumed Mid Growth Rate	Assumed High Growth Rate

The standard growth rates for pension products are 2.0%, 5.0% and 8.0% however providers must use lower growth rates where the choice of funds is unlikely to achieve returns in line with these rates. Overall growth rates cannot exceed the industry standard rates and will be limited to 2.0%, 5.0% and 8.0% if necessary.
