Important change to your Royal London investment

Dear <FIELD I><FIELD K> or Default Sir/Madam

What you need to know

Your pension <plan is> <plans are> currently invested in the RLP Global Managed pension fund. We're updating the benchmark of this fund to 35% UK Equities, 55% Global Developed Market Equities and 10% Emerging Market Equities. This change is designed to improve the long term outcomes for our customers.

Your plan number <Plan number>

Why are we updating the benchmark?

As part of our governance process we review the benchmark at least every three years to ensure it remains appropriate. This change is the next step in an established direction to increase exposure to global and emerging markets and is in line with our current tactical position which is overweight in both global and emerging market equities and underweight in UK equities.

What's changing?

- The benchmark will change from 50% FTSE All Share/50% FTSE All World ex UK to 35% FTSE All Share/55% FTSE World/10% MSCI Emerging Markets ESG Leaders Index.
- We're also updating the investment aim of the fund to make it clearer and you can find more details here: royallondon.com/fundchanges
- The Annual Management Charge (AMC) and the Total Expense Ratio (TER) will remain unchanged.
